

MMB HubSpot Reference Screens

Companion to the Sales & Lead Flow drawing — a set of annotated HubSpot screenshots showing the current CRM's page layouts, field groups, and column choices.
For Brian, as a reference for what the custom CRM needs to carry over or improve on.

Contents

- 1. Deal record — Building tab (closed Building Sale, full field set)
- 2. Deal record — Overview tab (activity, contacts, companies)
- 3. Deals list view — Building Sales pipeline, column headers
- 4. Contacts list view — Building Leads, column headers
- 5. Public quote request form — what the customer fills in
- 6. Deal record — Building tab, Install/Erection deal (Michael's redlines)

Deal Record — Building Tab

Closed Building Sale (Endicott_Wendell). Shows the full field group structure for a Building deal:

General → Basic Project Details (Geometry, Jobsite auto-filled, Financials with the 30/40/30 payment split) → Specs.

Right rail: Line items, Quotes, Attachments, Orders — the record's supporting data.

Deal Record — Building Tab, Install/Erection Deal

Michael's own redlines on an Install/Erection deal (Alan Moore): Estimation Vendor / Vendor Quote Number aren't needed here. A full cost breakdown IS needed as its own card — Payroll, Meals, Fuel, Lodging, Supplies, Equipment, SubContractors, Other, Budgeted PSF, Building SF, Total Budget — this is the bid-vs-actual data that gets handed off to Julie for QuickBooks.
